PERSONAL STATEMENT

An imaginative young web (application) developer, who can work with a team of other talented professionals to
implement high-quality front and back end solutions for consumer-facing websites.
With an awareness of industry issue and trends, I can analyse customer requirements and create a fully effective userfriendly solution in a variety of programming languages.

EXPERIENCE

Freelance   **– June 2016**

- Did freelance jobs for clients, such as e-commerce and portfolios

Andela BuildForSDG   **- 2020**

- Participated in a team to build a solution to help fight hunger in Africa, our team built a beautiful platform where
  farmers can sell their goods and also receive donation or aids to help the business.
